This Time Next Year

Toni Braxton

This time next year, I'll be home lighting candles

Tryin' to just get on with my life

And this time next year hope I'm through with the hurting

Tryin' to get you out of my mindSo, don't try to play like you're not that concerned

And don't try to say that your heart doesn't burn

Oh, tell meHow can you say that our love isn't special?

How can you say that our love wasn't true?

And how can you say you can take it or leave it

(Leave it)

When I'm missing you

And you know, you'll be missing me, too? This time next year, I'll be out buying presents
And something will remind me of you, yeah, yeah
And this time next year, I'll be out having dinner
And run into some friends we both knew, yeah, yeah

Oh, don't try to play like you won't be concerned And don't try to say that your heart doesn't yearn

Oh, tell meHow can you say that our love isn't special?

How can you say that our love wasn't true? And how can you say you can take it or leave it (Leave it)

When I'm missing you

And you know, you'll be missing me, too? Come early Christmas morning

I'll be having my coffee and I'll think of you

And the things we used to do, ooh

And you know, it will be breaking my heart

'Cause the holidays are special

It will always play a part in my heart

Tell me

(How can you say?)

How can you do it, baby?

(How can you say?)

How can you say our love ain't true?

(How can you say?)

You can take it or leave it

(Leave it)

When I'm missing you

And you know, you'll be missing

Tell me(How can you say?)

How can you say baby our love ain't special?

(How can you say?)

Tell me, how you say our love ain't true?

(How can you say?)

You can take it or leave it
(Leave it)

When I'm missing youAnd you know, you'll be missing
When I'm missing you
And you know, you'll be missing, baby yeah
I'm missing you
And you know
(You'll be missing)
That you be missing me, too?
