## Light Up the Sky

## **Yellowcard**

You're making a choice to live like this In all of the noise I am silence We already know how it ends tonight You run in the dark through a firefight And I would explode just to save your life Yeah, I would explodeLet me light up the sky Light it up for you Let me tell you why I would die for you Let me light up the sky I can't find a wall to pin this to They're all coming down since I've found you I just wanna be where you are tonight I run in the dark looking for some light And how will we know if we just don't try We won't ever knowLet me light up the sky Light it up for you Let me tell you why I would die for youLet me light up the sky Light it up for you Let me make this mine I'll ignite for you Let me light up the sky Just for you tonight Let me help you fly 'Cause you won't have time To cover your eyes And get your disguise They won't ask you why They just watch you dieAnd it's still so hard to be who you are So you play this part And the show goes on But you've come this far with a broken heart Yeah you've come this far And you're brokenLet me light up the sky, Light it up for you. Let me tell you why, I would die for you. Let me light up the sky, Light it up for you. Let me make this mine,

I'll ignite for you, I'll ignite for you.Let me light up the sky, Light it up for you. Let me tell you why, I would die for you.And it's still so hard to be who you are, But you've come this far with a broken heart. And it's still so hard to be who you are, But you've come this far with a broken...Let me light up the sky, Let me light up the sky.
