Special Occasion

Smokey Robinson & The Miracles

Hmm, hmm, yeah
Special occasion
Like when you dress up
In your tie and tails
Yeah, yeah
Special occasion

Every time and it never failsTo give me a thrill

That's fresh and new

Every time I'm kissin' you

It's something that you do

That makes every time you kiss me

A real special occasion

Like one that calls for

A toast of champagne

Yeah, yeah, yeahSpecial occasion

Every time and

It's hard to explainHow the same old touch

From the same old hand

Can make me feel

Like a different manI just can't understand

But every time you touch me

It's a real special occasion

Yeah, yeah

Special occasion, oh, oh yeah

Hmm hmm, yeah

Ooh, beautiful music begins to play

You are the sun

That brightens up my day

Why don't you stay

'Cause every time I'm with youIt's a real special occasion

Like when in school

You get your cap and gown

Yeah, nowIt's a real special occasion

Every time you come around

Baby, it's a real special occasion
