

Lemon Tree

Josh Rouse

Down in the valley where the grass is growin' tall and green,
I eat the berries and I sleep in the dandelion fields,
Oh, how I love the ocean and all those pretty pretty things,
It's a long walk home but I have found my beat. High here in the heaven cuz' we're sittin' 'neath
the lemon tree,
You count eleven those are kisses that you took from me,
Oh, how I love the ocean and all those pretty pretty things,
It's a long walk home but I have found my beat,
Down in the valley under lemon tree,
It's a long walk home through suburban streets,
Down in the valley under lemon tree.
