

# Start All Over

Miley Cyrus

I have to wonder if this wave's too big to ride  
Commit or not commit is such a crazy time  
It's sooner than I thought but you called me out  
I lost control and there's no doubt  
I'm gonna start all over Out of the fire and into the fire again  
You make me want to forget  
And  
Start all over  
Here I come straight out of my mind or worse  
Another chance to get burned  
And  
Start all over  
I'm gonna start all over  
Fantastic and romantic  
All a big surprise  
You've got the warning hazard station pushed aside  
It's sooner than I want  
But you caught my heart  
I guess I'm ready now to start  
I'm gonna start all over Out of the fire and into the fire again  
You make me want to forget  
And  
Start all over  
Here I come straight out of my mind or worse  
Another chance to get burned  
And  
Start all over  
I'm gonna start all over  
It's so easy  
You disrupt me  
Can't complain It's so easy  
You disrupt me  
Can't complain It's so easy  
You disrupt me  
Can't complain It's so easy... I'm gonna start all over  
Start all over Out of the fire and into the fire again  
You make me want to forget  
And  
Start all over  
Here I come straight out of my mind or worse  
Another chance to get burned  
And

Start all over  
Out of the fire and into the fire again  
You make me want to forget  
And  
Start all over  
Here I come straight out of my mind or worse  
Another chance to get burned  
And  
Start all over  
I'm gonna start all over
