

# The Real Is Back (feat. Beanie Sigel)

Dave East

Nah, no I'm not  
Nah, nobody on this  
You know how that go Now I'm living with a purpose, I ain't perfect  
Allah got me, ain't spend too much time in churches  
This from the heart, I ain't spend too much time rehearsing  
I was really thinking rob before I purchased  
I was really thinking God these niggas thirsty  
Paranoid around soft niggas, they make me nervous  
Clutching a pistol around these clowns that shit'll surface  
If you knew my life you would understand I deserve it  
Nobody gave me shit, told me I was worthless  
Felt like I was cursed until the day that paper surfaced  
It's a reason why me and Beans can relate in person  
I'm cut from that cloth, all that talking'll get you murdered  
I relaxed on that juice, them percocets be testing me  
Plus your bitch keep texting me, I ain't attracted sexually  
These niggas selling blow up, got the fiends frustrated  
Tryna get this dough up, package on me, ratchet on me  
Tell me what your life like cause mines is real  
Every thing signed and sealed, my mind on pills  
Niggas'll rat on they own mother, they see that time get real  
Teddy bears and candle lightings give your moms the chills  
As far as I can remember I've been a real one  
They say that pressure bust pipes but I don't feel none  
Just like these whack ass rappers I can't feel one  
You said you wanted the real back well here it come Pressure's on once again but I embrace it  
I weathered through the storm before, I'm never breaking  
I do this for the youth in the Matrix who won't make it  
I tell 'em every knock is a boost, remain patient  
But every move he make is calculated through his hunger  
It's sad to say shorty might not make it through the summer  
His mom turned tricks for a fix, pills strung her  
He only met his pop for flicks and a jail jumper  
His stomach empty but his clip full  
He pop xannies by the fist full  
Drink syrup, skip school  
Pants hanging off his ass, ain't been in the bath  
I try to steer 'em right cause I hate to see him crash  
Tell him just stay in his lane and remain humble  
You bound to get hit in the game just don't fumble  
I seen G's drop the ball and straight crumble  
Just know if your aunt had a dick she'd be your uncle

What your life like nigga mines is real  
No if, mights, maybes, probably, wills  
I blow your fucking head off with that revolver steel  
I shot a nigga on tour, got that revolver still  
Know when you fucking with the Bully you involved with real  
I put your body somewhere, they won't solve your kill nigga  
You need to stop if you think Mac won't pop it  
And your mom in all black out casket shopping  
It's the Broadstreet Bully and Dave East, yeah we playing for keeps  
These niggas dressing like freaks and they calling it fleek  
These niggas be signing sheets plus they calling police  
Know every nigga in the ghetto ain't involved in the streets  
We ain't really into the games we gon' rest you to peace  
Pull something big out, give you a long kiss on the cheek  
Who ready to die? Sky's the limit who want beef?  
I was a bad boy before I repped the ROC  
This ain't nothing new shit this just what the fuck we do  
We like no limit soldiers and nigga I'm that true  
The reason, the solution nigga I'm that too  
Whoever stuck to the realness, then I'm that glue  
It's a war going on outside you ain't safe from  
You can play Super man, you get your cape hung  
We don't start no shit and we don't take none  
We just 100% until our day come As far as I can remember I've been a real one  
They say that pressure bust pipes but I don't feel none  
Just like these whack ass rappers I can't feel one  
You said you wanted the real back well here it come  
As far as I can remember I've been a real one  
They say that pressure bust pipes but I don't feel none  
Just like these whack ass rappers I can't feel one  
You said you wanted the real back well here it come You said you wanted the real back well  
here it come  
You said you wanted the real back well here it come  
You said you wanted the real back well here it come  
You said you wanted the real back well here it come  
You said you wanted the real back well here it come  
You said you wanted the real back well here it come  
You said you wanted the real back well here it come
