Damage

H.E.R.

If you got it, it ain't no question
No, it ain't no room for guessin'
No more than emotionally invested (No, no)
Showin' you all my imperfections, ohIf I let you, you'll take me for granted, yeah (You, you, you, you)
If I'm worth more than you could manage, manage, yeahOpen with me, oh we could be honest
Closer to me, oh giving me solace
Promise that you won't let me fall
Holding me tight
Loving me right
Giving me life
All night
You could be
(You could be)
Telling me lies
Making me cry
Wasting my time
The whole time
So just be
Careful what you take for granted, yeah
'Cause with me know you could do damage
You, you could do damage
You, you could do damage, yeah
Worried about it I'm putting pressure (You know)
You'll only cut me if I let you
No, he ain't the one, it's just for pleasure
Either learn me or I'm a lesson goneIf you want me don't take me for granted, yeah, yeah
If I'm worth more than you could manage, babyOh you're falling for me, oh baby I've caught it
Ooh we could be whatever you wanna call it
Promise that you won't let me fallHolding me tight
Loving me right
Giving me life
All night
You could be
Telling me lies
Making me cry
Wasting my time
The whole time
So just be
Careful what you take for granted, yeah
'Cause with me know you could do damage
You, you could do damage

You, you could do damage
Oh, you could do damage
Know you could do damage, yeah
Oh, you could do damage, yeah, yeah
Oh, you could do damage, oh with me
