

Oh, George

Foo Fighters

The train that I got onto
up and left that town
threw it up as it went down.Strange enough, it left me
rude and turned around.
Watched as they all took their vows.Fools were drawing
try'n'to save that day.
I don't doubt that anyway.
Phase it out until the
older ones return
have a seat and watch it burn.Trace around the corner
this is what I've learned.
Always waited for my turn.
Fools were drawing
try'n'to save that day.
I don't doubt that anyway.Fools were drawing
try'n'to save that day.
I don't doubt that anyway.
