

# Everybody's Going Through Something

Chris Janson

Everybody's got a crawl, something they lost  
Everybody's going through something  
The downpour rain or a hurricane  
Everybody's going through something  
A tie-dye t-shirt, a three piece suite  
Steel toe, flip flops, or cowboy boots  
It's the same old rain we're walking through  
Everybody's going through somethingEverybody's going through something  
So cut somebody some slack  
It don't cost you nothing  
To have your buddy's back  
Broken hearts and broke down cars  
Bad news don't care who you are  
Ain't it harder to hate somebody than to love 'em  
Everybody's going through something  
People with scars, people in bars  
Everybody's going through something  
Going to church, going to work  
Everybody's going through somethingEverybody's going through something  
So cut somebody some slack  
It don't cost you nothing  
To have your buddy's back  
Broken hearts and broke down cars  
Bad news don't care who you are  
Ain't it harder to hate somebody than to love 'em  
Everybody's going through something  
Everybody's going through somethingStuck in a rutt, stuck in three ways  
Bless the stress and there's hell to pay  
At the end of the day it's gonna be okay  
Everybody's going through something  
Yeah, everybody's going through something  
So cut somebody some slack  
It don't cost you nothing  
To have your buddy's back  
Broken hearts and broke down cars  
Bad news don't care who you are  
Ain't it harder to hate somebody than to love 'em  
Everybody's going through something  
That's right  
Yeah, everybody's going through something  
Baby-baby
