

# 079ME (Blinkie Remix)

B Young

Girl I know you from somewhere, maybe  
Really I'm lying girl you know I just want your number, baby  
I'm seeing the look in your eyes  
Girl you know that you done for, done for, done for  
Cos we both know the answer  
You better 079 me, 079 me, 079 me  
Girl I know you from somewhere, maybe  
Really I'm lying girl you know I just want your number, baby  
I'm seeing the look in your eyes  
Girl you know that you done for, done for, done for  
Cos we both know the answer  
You better 079 me, 079 me, 079 me  
Girl I see you change your pic up 'pon your WhatsApp  
Type of booty got the mandem wanna watch back  
Bad ting yeah you want man I can boss that  
I'll let it ring, yeah you know you're gonna buzz back  
Girl I can tell you're a dreamer  
But nothing coming realer, gyal you know we live Viva la Vida  
Pull up in a beamer, skrr skrr she a screamer  
Got this baddest sweating up a fever  
Tell me the place baby we can go go  
You can put your head down I can drive slow  
You can blow the smoke baby roll the weed though  
Girl I know you from somewhere, maybe  
Really I'm lying girl you know I just want your number, baby  
I'm seeing the look in your eyes  
Girl you know that you done for, done for, done for  
Cos we both know the answer  
You better 079 me, 079 me, 079 me  
Girl I know you from somewhere, maybe  
Really I'm lying girl you know I just want your number, baby  
I'm seeing the look in your eyes  
Girl you know that you done for, done for, done for  
Cos we both know the answer  
You better 079 me, 079 me, 079 me  
Baby I want you, yeah, I want you close  
Babygirl and I want it slow  
So baby come close, said I can show you the ropes  
You see me popping on your timeline  
Still you tryna keep me on the sidelines  
Tryna read between your fine lines,  
079 you can hit me in the nighttime  
Ooh baby you can snap me with your clothes all off  
Hmm babygirl I can't get enough  
Hmm babygirl I'm tempted to touch  
I be hitting it rough, you know, you know  
Tell me the place baby we can go go  
You can put your head down I can drive slow

You can blow the smoke baby roll the weed though  
Girl I know you from somewhere, maybe  
Really I'm lying girl you know I just want your number, baby  
I'm seeing the look in your eyes  
Girl you know that you done for, done for, done for  
Cos we both know the answer  
You better 079 me, 079 me, 079 me  
Girl I know you from somewhere, maybe  
Really I'm lying girl you know I just want your number, baby  
I'm seeing the look in your eyes  
Girl you know that you done for, done for, done for  
Cos we both know the answer  
You better 079 me, 079 me, 079 me
