## I Got the Boy

## Jana Kramer

I saw your picture in a paper, Honeymoon in Jamaica, she's a lucky girl

You look so grown up in your black tux,
from a ball cap in a pick up, seems like another world
You and me and our big dreams, falling in love

We were two kids in the backseat, all fearless and youngI got the first kiss and she'll get the last She's got the future, I got the past

I got the class ring, she got the diamond and wedding band
I got the boy, she got the man
Yeah there's an old you that I knew,
Fake IDs to get into those spring break bars
Back woods on a four wheel, hanging on tight,

I can still feel my racing heart
And now you're cleaned up with a hair cut, nice tie and shoes
If things were different and I had a choice, which would I choose?I got the first kiss and she'll
get the last

She's got the future and I got the past
I got the class ring, she got the diamond and wedding band
I got the boy and she got the man
I got the first kiss and she'll get the last
We each got something, the other will never have
I got the long hair, hot head
She got the cool and steady hand
I got the boy and she got the man
I got the boy and she got the man
