

# The Plug

## Papoose

"Got the product, the power and the will to do the hustle"  
I'm the plug - everything running through me  
Brick of dope two keys, it's a Rap Kool G  
I'm the plug - man I got whatever you need  
Apartment, 2C, he a worker, who me?  
I'm the plug - everyday I make a few G's  
French Montana boys, Coke Boys, oh wee  
I'm the plug - True hustler, you see  
Keep a new phone number, new crib, new V  
I'm the plug  
Customer, I keep em coming, kicking pies, keep the oven  
Play the stakes, say you grace, paper chase, we be running  
For God, SP, Birdman, he be stunting  
Making dumb cabbage, drug traffic caught, read the summons  
Ever since Strong died he ain't shit, he need his cousin  
Niggas lying, still riding by himself, he be thugging  
Baking soda, baking soda, man ya pockets gon' be hurt  
You put too much baking soda then you fucking up the work  
Firearms safety, don't make me laugh, niggas funny  
Man the only thing you keeping in a safe is his money  
Laundering I flip a check, sell it to 'em dripping wet  
They say you the big dawg, fuck a dog it's just a pet  
Competition sending threats, shots fire, hit the deck  
He did it just to get a rep, dying rich, won't live in debt  
Coke dancing in a pot, man I never miss a step  
Money, power and respect, fuck your connect, I'm his connect  
My work is smart, the feds might be on me  
So they never say my name, they just call me "Big Homie"  
So much residue, I might need a newer scale  
I be making stupid sales, packages come through the mail  
Stashed in the ceiling so I never get arrested  
Keep the work in high places, the dogs can't smell it  
Smell like [?], call me Mr. Miyagi  
Or the kid from Karate Kid, chopping bricks up with papi  
I be pimping to body this rap shit is a hobby  
I'm Sylvester Stallone homes, my wrist it be rocky  
None of these niggas can stop me, bust a lick in ya lobby  
Slip the clip in a tommy, don't turn this shit to a homie  
Burn the block down then I hit the next strip  
Bout to make a movie, they should sell this shit on Netflix  
Disrespect this, better hit the exit  
Hurry out get buried slouch, I empty out the Tec clip

"I know what I'm worth"  
"It's not a game when you boiling up a pot of  
'caine"
