

# American Country Love Song

Jake Owen

It's two tickets to a concert  
It's a Daytona airbrush t-shirt  
Wonderin' who's gonna kiss who first  
You know what i'm talkin about  
Hey baby what you doin' tonight?  
It's butterflies and Bud Lights  
Under the stars and on the stripes of a  
Beach towel in a spring break town  
It's playin' in the night air  
Through the speakers all night long  
Couple kids just livin' that American country love song  
And every town and every place  
There's a boy who's tryin' to take a chance and dance  
And find a way to runaway with her heart  
In the back of an old Ford truck  
In the bar just lookin' for luck  
In a pair of oh my blue eyes  
Let them fireworks start  
That American country love song  
Ain't never gonna quit playin' on and on and on  
Well it's "Chris loves Jenny" on a license plate  
It's daddy gettin' mad cause you came home late  
It's one last kiss in the driveway  
Hey radio DJ, can you play that song that she loves  
So I can turn it up, and maybe turn her on  
An American country love song  
And every town and every place  
There's a boy who's tryin to take a chance and dance  
And find a way to run away with her heart  
In the back of an old Ford truck  
In the bar just lookin' for luck  
In a pair of oh my blue eyes  
Let them fireworks start  
That American country love song  
Ain't never gonna quit playin' on and on and on  
So let's raise a glass  
Cheerleaders and quarterbacks  
Cowboys and country girls all around this small town world  
To the same old pick up lines we've tried a million times  
All the bad and good as it gets till the ones that you ain't met yet  
And every town and every place  
There's a boy who's tryin to take a chance and dance

And find a way to run away with her heart  
In the back of an old Ford truck  
In the bar just lookin' for love  
In a pair of oh my blue eyes  
Let them fireworks start  
That American country love song  
Ain't never gonna be plain' on and on and on
