

It's Not a Fashion Statement It's a Deathwish

My Chemical Romance

For what you did to me
And what I'll do to you
You get, what everyone else gets
You get a lifetime Let's go Do you remember that day when we met?
You told me this gets harder, well, it did
Been holding on forever
Promise me that when I've gone
You'll kill my enemies The damage you've inflicted, temporary wounds
I'm coming back from the dead
And I'll take you home with me
I'm taking back the life you stole
We never got that far
This helps me to think all through the night
Bright lights that won't kill me now or tell me how
Just you and I, your starless eyes remain Hip hip hooray for me, you talk to me
But would you kill me in my sleep
Lay still like the dead
From the razor to the rosary
We could lose ourselves
And paint these walls in pitchfork red I will avenge my ghost with every breath I take
I'm coming back from the dead
And I'll take you home with me
I'm taking back the life you stole This hole that you put me in
Wasn't deep enough
And I'm climbing out right now
You're running out of places to hide from me
When you go
Just know that I will remember you
If living was the hardest part
We'll then one day be together And in the end we'll fall apart
Just like the leaves changing colors
And then I will be with you
I will be there one last time now When you go
Just know that I will remember you
I lost my fear of falling
I will be with you, I will be with you
