

# Black Radio (feat. yasiin bey)

Robert Glasper

Experiment, black radioRadio, sucka never play me  
Triple shade of black that my bleach should never fade me  
They say he crazy  
New York raised him in the 80s  
Kill the Koch administration  
Gangster renovation  
Born in isolation-ation  
Ill communication-ation  
Ma Bell fiber optic  
Presidential microscopical  
Soul sonic remedy  
Clinic right in the street  
Operating in the dark  
Surgery your wounded heart  
Come together peel apart  
Peel apart come together  
Smoking on something good  
Praying for something better  
From out of better  
Never rocking for forever ever  
Ever ever ever ever  
Forever ever ever everIt's still a secret even when you tell em dumb dummies  
Hush money, rent receipt and drug money  
They cold gutter, want gun money  
The chief rocker, fuel-injected Zulu horse proper, love boogie  
Bey  
BeyHa! You're rockin  
Yes, you are rockin with the fresh  
You are rockin with the Def  
You are rockin with the best

Big bird flying down on a mountain pass  
Only thing to survive the crash  
You wanna fly free go far and fast  
Built to last, we made this craft  
From Black Radio
